Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reissue Applications

This reissue application was filed without the required offer to surrender the original patent or, if the original is lost or inaccessible, an affidavit or declaration to that effect. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed.

See 37 CFR 1.178

Allowable Subject Matter

Claims 21-60 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 21 and 59 are allowable because the prior art does not teach or fairly suggest a method for separating plasma components by electrophoresis that comprises separating the plasma into a first and second component using a first electrophoretic separation membrane whereby the first component containing a mixture of albumin and a-1-antitrypsin resides on one side of the first electrophoretic separation membrane while the second component resides on the other side of the first electrophoretic separation membrane; separating the second component into third and fourth components whereby the third component containing immunoglobulins is located on one side of a second electrophoretic separation membrane and the fourth component resides on the other side of the second separation membrane; removing material having a molecular mass greater than immunoglobulins from the third component using a third

electrophoretic separation membrane whereby immunoglobulins reside on one side of the third electrophoretic separation membrane and material having a molecular mass greater than immunoglobulins reside on the other side of the third electrophoretic separation membrane; and separating albumin from alpha-1-antitrypsin in the first component using a fourth separation membrane whereby alpha-1-antitrypsin resides on one side of the fourth electrophoretic separation membrane and albumin resides on the other side of the fourth separation membrane. All depending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel P Siefke whose telephone number is 571-272-1262. The examiner can normally be reached on M-F 7:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill A. Warden can be reached on 571-272-1700. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
